Career Objective

Aspiring Computer Science Engineering student to contribute technical expertise and problem-solving skills in a dynamic professional environment. Seeking an entry-level position to apply classroom knowledge, collaborate with innovative teams, and grow in the field of computer science.

Education

- **B. Tech (Computer Science – AI/ML)** 2022-2026 | CGPA: 8.50
Malla Reddy Engineering College, Hyderabad
- **Intermediate (MPC)** 2020-2022 | CGPA: 6.92
St. Anthony's Junior College, Sangareddy
- **SSC** 2019-2020 | CGPA: 10.0
Oxford High School, Sangareddy

Projects

- **Human Age and Gender Prediction – Machine Learning, Computer Vision, Deep Learning, Data Analysis:** Creates an intelligent system to predict human age and gender using **facial images** with high accuracy. Provides efficient **data processing** and **real-time predictions** for enhanced **user experience** and smart analytics.
- **Blood Group Prediction using Fingerprints – Machine Learning, Biometrics, Pattern Recognition, Data Analysis:** Proposes a novel system to predict blood group using **fingerprint patterns** and unique ridge characteristics. Enables fast and non-invasive identification through **biometric data processing** and **predictive modeling** for efficient analysis.

Technical Skills

Programming Languages: Java, Python, JavaScript

Web Technologies: HTML, CSS, React JS, Node JS REST API

Databases: SQL, MySQL

Tools: Git, GitHub, VS Code, Postman

Internship

- **Microsoft-AICTE Internship – Edunet Foundation, Azure AI, Machine Learning:** Completed internship on **Azure AI**, developing a **Self-Navigating Delivery Robot** using **AI, ML, DL**, and **GenAI**. Gained hands-on experience in **image classification, regression**, and **neural networks** through practical projects.

Certifications

- **Azure AI Fundamentals – Microsoft:** Learned **AI concepts, machine learning basics**, and **Azure cloud services** for building intelligent solutions.
- **API Fundamentals Student Expert – Postman:** Gained skills in **API design, testing**, and **integration** using Postman tools.
- **Python & Java Basics – Infosys Springboard:** Built foundation in **Python, Java**, and **object-oriented** programming with problem-solving skills.
- **HTML & CSS – Udemy:** Developed skills in **web design, responsive UI**, and **frontend development** using HTML and CSS.
- **Azure AI – Edunet Foundation:** Acquired knowledge in **AI models, machine learning**, and **cloud-based solutions** using Azure.
- **Vishesh – Project Expo Participation, Presentation Skills, Innovation:** Demonstrated a technical project, showcasing strong **presentation skills** and **innovative thinking**.

Achievements

- Secured 2nd position in the internal hackathon organized by my college.
- Participated in hackathons, coding competitions and tech-related events.
- Served as an NSS coordinator in college, demonstrating leadership skills and active involvement in community service activities.

Strengths

- Quick Learner
- Good Verbal Ability
- Problem-Solving Mindset
